

BULK MATERIAL WARMING

Do you need to heat odd shaped materials or a variety of palletized products simultaneously? Are you wasting valuable time and materials due to freezing or cold weather conditions? Then you need the revolutionary HotBox by Powerblanket!

HOTBOX

The Powerblanket® HotBox is the most efficient method for heat soaking temperature sensitive materials. These products include cold patch asphalt, paint, epoxies, resins, roofing materials, palletized or bulk heat sensitive material and most equipment found on a job site. Create, control and maintain a heated environment for fast and effective heat soaking.

- ◆ Maintain safe and constant temperatures
- ◆ Compact portable design
- ◆ Lightweight and very durable
- ◆ Internal free-standing frame
- ◆ Highly efficient - low energy consumption
- ◆ Adjustable thermostatic controller included
- ◆ UL Listed & CSA Certified

HOTPOCKET

Transport temperature sensitive materials with Powerblanket's® portable 12V hot pocket heated pouch. HotPocket comes standard with alligator battery clips, cigarette lighter adapter, and can easily be converted to a trailer light adapter for easy plug-in. Keep pre-heated cold patch, resins, caulking, and other temperature sensitive materials warm during transport. Light weight and very durable. Works in conjunction with Powerblanket® HotBox.

PRODUCT GUIDE

HOTBOX:

- 48 CUBIC FOOT STORAGE SPACE**
 Conveniently store up to 48 cubic feet of palletized bulk material. Protects temperature sensitive materials from harsh weather. Ideal for heat soaking bagged asphalt, bulk epoxy, caulking, and other road and construction materials. Includes adjustable thermostat controller for precise temperature control.
- 64 CUBIC FOOT STORAGE SPACE**
 Our most popular heat soaking Hot Box. Conveniently stores up to 64 cubic feet of palletized bulk material. Protects temperature sensitive materials from harsh weather. Ideal for heat soaking bagged asphalt, bulk epoxy, caulking, and other road and construction materials. Includes adjustable thermostat controller for precise temperature control.

HOTPOCKET:

- TRANSPORT PRE-HEATED MATERIALS**
 Innovative 12V heating system conveniently connects to battery, trailer plug, or cigarette lighter. Ideal for transporting bagged asphalt, bulk epoxy, caulking, and other road and construction materials. Heavy duty zipper design and rip stop vinyl, make this the perfect solution for any weather condition.
